

Mousterian—

Acheulian—

and Oldowan...

Discovered—recovered—
scrutinized, and prized...

As remnants of Ancient Ages—

with cataclysmic changes—

hunter-gatherers—and shamans...

Homo Erectus—Neanderthal—to Modern Humans...

“ Out of Africa “—according to DNA—

while some still postulate regionalism today...

Neanderthal totally extinct...?
Many experts now so think

this is a new absolute—

but there are still those who dispute

these analyses—and seem resolute

to continue to seek—

to find special sites—

and into The Past to peak...

revealing

pieces of The Puzzle—

an Ancient Mosaic...

Each find is exciting—
kind of adding a new shape...

The Old is revised—refined—

and newly defined...

The Paleo People—long gone—

left teasing, teaching treasures behind...
